PROFESSIONAL SUMMARY

Full-stack Software Engineer with 3+ years of combined professional and internship experience delivering user-facing React/TypeScript products, Java and Python services, analytics workflows, and reliable APIs. Focused on product ownership, experimentation, automated testing, and maintainable code.

EXPERIENCE

- Software Engineer** July 2024 – Present
Cisco *San Jose, CA*
 - Built React/TypeScript administrative experiences and Java/Spring Boot APIs for enterprise network-access products, owning features from requirements through testing and customer issue resolution.
 - Developed a concurrent, Dockerized service that synchronizes Microsoft Entra ID account data with enterprise devices through REST APIs, validation, and failure recovery.
 - Raised unit and automation test coverage from 30% to 95% and introduced AI-assisted code-review and testing workflows that improved bug resolution time by 30%.
- Software Engineer Intern** June 2023 – August 2023
Paramount *San Francisco, CA*
 - Built a React analytics dashboard that exposed viewer-retention and regional engagement trends across 5,000+ Paramount+ titles to product and content teams.
 - Developed a containerized Python ingestion job that moved 100+ GB of nightly BigQuery data into a CMS; optimized SQL schemas to reduce storage and query overhead.
- Software Engineer Intern** June 2022 – April 2023
Robert Half *San Ramon, CA*
 - Led development of a reusable multi-step web application framework in React, Redux, and TypeScript for customer-facing forms on roberthalf.com.
 - Added Jest tests and delivered production fixes through Git and Jenkins CI/CD, reducing the legacy Drupal/PHP backlog by more than 50%.

TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React, Redux, HTML, CSS/LESS, Jest, responsive UI
Backend/Data: Java, Spring Boot, Python, Node.js, REST APIs, SQL, PostgreSQL, MySQL, Redis
Cloud/Tools: Git, Docker, Jenkins, Google Cloud, BigQuery, Linux, Jira, CI/CD
Product Engineering: Full-stack development, A/B testing concepts, code review, accessibility, observability, Agile

PROJECTS

- AI Task Monitoring Interface** | *React, TypeScript, REST, Jest* 2026
 - Prototyped a dashboard that helps users follow long-running AI-assisted tasks, review generated work, retry failed steps, and approve important actions.
 - Created reusable React components and tests for live updates, incomplete results, empty states, and recoverable errors.
- Interactive 3D Driving Experience** | *JavaScript, Three.js, Cannon.js* 2022
 - Built a browser-based driving experience with physics-based vehicle controls, reusable UI components, and performance-conscious rendering.

EDUCATION

University of California, Santa Cruz Santa Cruz, CA
Bachelor of Science in Computer Science June 2024
